A **person** exits a parked **car** and approaches another **individual** lying **motionless** on the **ground** near the **vehicle**. The standing **individual** appears to be checking on or interacting with the **person** on the **ground**, exhibiting signs of concern or urgency. This sequence suggests an incident involving potential **injury** or **distress**, as the standing **individual**'s actions indicate an attempt to assist or assess the situation. The **anomaly** here is the presence of an **unconscious** or incapacitated **person** on the **ground**,...
